ON

ISSUE 7

DEVASTATING CUTS

- Issue 7 would **take \$87 million out of the city's general fund**, which is roughly 10% of the total city budget.
- It would **cause massive cuts** to city services, including public health, emergency services and parks.
- Because of the City's funding structure, it would also cause funding **cuts to the capital budget**. That would mean no new street resurfacing, sidewalks, streetlights or firetrucks next year.
- As we continue to grapple with the COVID-19 pandemic, now would be an especially **bad time for massive cuts to city services**
